PROFESSIONAL SUMMARY

I am a frontend developer with 3+ years experience living in Denver, CO. I have been working with Javascript, Typescript and React to create modern web applications. With a background as a writer and a passion for collaboration, I leverage my skills to solve problems and provide clients with exactly what they want.

SKILLS

- HTML5/CSS
- RESTful APIs
- Problem-solving
- Javascript/Typescript
- Testing frameworks
- Collaboration
- React
- Adaptability and flexibility
- Communication

EXPERIENCE

Frontend Engineer Clerk, 2021 - 2023

- HTML/CSS, JavaScript, React, NextJS, Sanity CMS, Tailwind, ChakraUI, Cypress and many other third party integrations.
- Integrated third-party APIs to extend website capabilities.
- Frontend Engineer on the marketing team, working with designers to create our primary web page.
- Support Engineer, helping users fix bugs and integrate Clerk into their applications.
- Participated in code reviews to maintain high-quality code standards.
- Produced high-quality, clean code for client projects.

Frontend Engineer ReRent, 2020 - 2021

- HTML/CSS, JavaScript, React, Redux, Node.js, Jest, GraphQL.
- Building the app from the ground up, working on both the marketing materials, as well as the functionality of the app itself.
- Optimized websites for search engines using SEO best practices.
- Monitored website traffic using analytics tools such as Google Analytics or Adobe Analytics.
- Tested websites for usability, accessibility, and performance optimizations.

EDUCATION

Front End Curriculum Turing School of Software and Design, Sep 2020

Turing is an intensive 7 month program which focuses on the practical development of software applications. We were required to deliver MVPs on a weekly basis, and to constantly research and apply new technologies and frameworks to our projects.
